

April 28th NOTES & CALLS TO ACTION

Free PA Lancaster County Chapter

Dear Friends & Fellow Patriots,

Many thanks to all who attended our meeting and a hearty welcome to all the new members of Free PA. Special thanks to Dr. Steve Turley for his keen insights, humor and optimism which encourages us to be brave and stand for our country and for our freedoms

SUMMARY OF EVENTS/CALLS TO ACTION:

General Chapter Business:

- Please reach out to us if you have raffle items to donate or wish to volunteer. We need your skills!
- The new website is LIVE! Go to Freepa.net and click on the Lancaster Hub tab from the main page. Please check it out; we are looking for your feedback.

Education & School Boards:

Free PA has a new school board coordinator, Dina Agadis. Please coordinate with her She will be reaching out to her to begin to build a network of communication and action.

Election Fairness:

We are gearing up for the coming elections! We need your help! **A google document will be sent out separately soon.** Please complete the information so that we can reach out to you for election help in your district. The only way to win back our local government is to band together with boots on the ground to elect people who actually represent us. Additionally, please contact your local GOP council lead and ask to be appointed to an open GOP seat if it exists in your precinct. There are 185 open seats throughout the county. These committee members are tasked with choosing which candidates the party eventually endorses. We must control the majority of these seats to kick the RINOs out.

PA Legislation:

1. **Support HB 2013 - Right to Medical Freedom which states: (petition)**
The right of an individual to refuse any medical procedure, treatment, injection, vaccine, or prophylactic may not be questioned or interfered with in any manner. Equality of rights under the law shall not be denied or abridged to any person in this Commonwealth because of the exercise of the right under this section.
2. **Support PA Energy Independence Act HR6858:** The proposed bill asks for several things including an Immediate suspension of the Corporate Net Income Tax and Personal Income Tax for natural gas producers; exempt PA from certain EPA regulations such as the Cross State Air Pollution Rule; require a report from the DEP of all rules and regulations which impact PA's natural gas and oil industries; an immediate suspension of PA's entrance into the Regional Greenhouse Gas Initiative.
3. **Oppose Con-Con resolution SR 67:** Tell your state senator and representative to oppose SR 67 and every other Article V Con-Con resolution! Rather than passing Article V convention applications, which risk a runaway convention threatening our individual freedoms, the General Assembly should consider Article VI and nullify unconstitutional laws.
4. Please support our candidates running for office: Mike Miller for House, Anne Weston for House and Stephanie Hill and Christina Parsons for Lancaster County State Republican Committee.
5. Wolf is asking church leaders to bring Covid-19 vaccination events into churches, proving the Left only recognizes churches as legitimate institutions when they serve to advance their agenda. Local Innovations in Vaccine Equity in

[Pennsylvania” project \(LIVE PA\)](#) to eliminate so-called “vaccine hesitancy.” Under this grant program, the commonwealth pays churches and nonprofit groups to persuade people to be vaccinated. **TALK TO YOUR PASTORS AND ASK THEM NOT TO PARTICIPATE.**

CALL TO ACTION: CALL & WRITE YOUR REPS & ASK THEM TO SUPPORT THESE BILLS AND OTHERS LISTED ON OUR SITE.

Go to [Freepa.net](#), click on the Lancaster Hub, Get involved, Track Legislation and voice your opinion. Direct links are there!

National Legislation & Concerns:

1. The Biden administration is [preparing a major push](#) to pressure Congress into enacting the so-called “anti-China” bills H.R. 4521 and S. 1260. However, these bills would actually benefit China while implementing leftist policies. *Urge your U.S. representative and senators to resist Biden’s push for these destructive bills!* HR 4521 does the following:
 - Includes [24 amendments](#) from members of the socialist Congressional Progressive Caucus related to climate change, “equity,” and other leftist priorities.
 - [Implements](#) an extremist “climate change” agenda, including codifying a requirement that the U.S. implement the Paris climate agreement, and directing the U.S. Armed Forces to implement climate-change training.
 - Provides billions of dollars in funding to foreign countries — including China — in the name of combating climate change. This includes \$8 billion to the UN Green Climate Fund, \$2 million a year to other countries, and gives China financial assistance from the World Banks Group and Asian Development Banks.
 - [Enables](#) the importation of [thousands](#) of additional refugees and [economic migrants, including CCP agents](#).
 - Implements Critical Race Theory in the federal government, including by [requiring](#) the National Science Foundation to promote “diversity, equity, and inclusion in the technology sector.”
 - Require the U.S. to work [even more closely](#) with Communist China, giving the latter even more opportunities to steal U.S. intellectual property.
 - Fails to take multiple actions that would actually push back against Communist China.

Nearly all the spending in the Senate companion bill S.1260 is UNCONSTITUTIONAL!

2. See all other legislation at the Lancaster Hub. (see above).
3. **NOMINATIONS:** Biden’s ATF nominee, **Steve Dettelbach**, has a long history of issuing statements and backing measures opposing gun rights.
Dettelbach supported gun control measures during a failed campaign to be Ohio’s attorney general in 2018, including bans on so-called “assault weapons” and universal background checks. The National Rifle Association and National Shooting Sports Foundation both raised concerns about Dettelbach’s record.
4. **DRUG POLICY:** Democrats in the US House are pushing the legalization of recreational marijuana citing that most Americans want it. Let’s ignore the studies that show cannabis use is likely to increase the risk of developing schizophrenia and other psychoses. These psychoses lead to an increase in violence. HR 3617 (Marijuana Opportunity Reinvestment and Expungement Act) would legalize recreational marijuana on the federal level. [A drugged nation does not make for better citizens. OPPOSE THE LEGALIZATION ON NON-MEDICAL MARIJUANA.](#)

Medical Freedom:

1. Biden's mandate for federal workers is back on; the fight for freedom of choice in the military is also not settled! Several lawsuits are advancing.
2. The U.S. Centers for Disease Control and Prevention (CDC) officially launched the Center for Forecasting and Outbreak Analytics (CFA) in April, which aims to enable timely and effective decision-making when responding to disease outbreaks.
3. Pfizer has had to hire 600 new staff to deal solely with the number of adverse events being reported after inoculation with its Covid vaccine.
4. All-cause mortality is up by 40% and numerous whistleblowers are putting stats out that are so alarming that the entire vaccine program should be halted. See this link for more information on this issue: https://www.theepochtimes.com/mrna-vaccines-lead-to-spike-protein-entering-nucleus-rise-in-vascular-events-40-percent-increase-in-all-cause-deaths-dr-urso_4414729.html?utm_source=ai&utm_medium=search
5. Recent medical case reports describe pre-teen and teenage girls developing painful genital lesions following Pfizer-BioNTech COVID-19 injections. The ulcers are poorly understood but are believed to be an abnormal immune response to infection or other sources of inflammation. Each of the girls suffered from multiple ulcers on her genitals, some of which developed "necrotic islands" – or spots of dead, gray tissue.
6. It has been revealed that the vaccine makers used portions of the HIV virus sequence to get around the human immune system to get the MRNA payload delivered. The implications of this are huge and to some extent explain the rash of auto-immune reactions following vaccination. It is now known, without a doubt that the spike protein negatively affects the spleen (so brain as well), liver and reproductive organs resulting in a host of neurological disorders and cancers. It is unknown as to the length of time the spike protein remains in the body and it is speculated that with every additional booster the potential for harm grows exponentially.
7. Microplastic fibers have been discovered deep in the lower lungs of living human beings – in almost every person sampled, in fact, in a [new study](#) from Great Britain. Microplastic pollution – the tiny particulate debris of eroding plastics — has become a [pressing environmental problem](#), especially in aquatic settings, where a [recent review](#) found that they cause tissue damage, reduced growth, and even mortality, affecting the food chain in aquatic ecosystems. The hazards to human health are a growing concern now, especially as the microparticles have become so ubiquitous.

Upcoming Events: RECAP

LIVE STREAM EVENT HOSTED BY CAPITOL AREA FREE PA

Grass Roots Forum & Debate for Gubernatorial and Lt. Gov Candidates

This will be a live stream of the event at our Free PA Capitol Area Location.

Doors will open at 6:00pm. Live Stream from 6:30pm-9:00pm.

Lancaster Free Pa Hosts Tom DeWeese

The Sustainable Development Hoax & Agenda 2030

What Can We Do?

Thursday, May 26, 2022

Spooky Nook

Free Event!

Register: <https://www.eventbrite.com/e/tom-deweese-on-sustainable-development-agenda-2030-tickets-302972427687>

Registration Opens 4/1/22

Upcoming Meetings:

Our next Free PA meeting will be Thursday, May 12th at Loxley's/ Heritage Hotel, 500 Centerville Rd. Our guest speakers is Faith Bucks, candidate for the 98th District. She is a solid conservative who wants to bring change to government.

We are planning to show a very critical video on the reasons why we need to OPPOSE a Con-Con. YOU DO NOT WANT TO MISS THIS. Our constitution is the only thing standing between us and the New World Order.

We will also continue our video shorts on the corruption of the vaccine industry and how it has led to where we are right now!

You don't want to miss a minute of this series and our discussions are always informative and result in concrete action. Please join us.

Thank you, members of Free PA, for continuing to support our mission and fight for our freedoms!

With best regards,

Anne Marie DiCarlo

Lancaster Chapter Leader
