OCTOBER 14TH NOTES & CALLS TO ACTION

[FreePA Lancaster County Chapter](#)

Dear Friends & Fellow Patriots,

Many thanks to all who attended our meeting and a hearty welcome to all the new members of FreePA.

Captain Seth Keshel gave an amazing presentation! The movement for freedom is growing, thanks be to God!

SUMMARY OF EVENTS/CALLS TO ACTION:

SECOND AMENDMENT RIGHTS UNDER THREAT:

GUNS & FIGHTING DISEASES? The Centers for Disease Control and Prevention will now fund research into gun violence, framing the topic as a matter of public health, according to a report from National Public Radio. "The CDC and the National Institutes of Health, for the first time in nearly a quarter-

century, are funding new research on guns to help reduce firearm-related injuries, deaths, crime and suicides," NPR reported. Second Amendment advocates have decried the CDC's foray into the gun debate, warning that if the CDC grants itself authority on the topic by claiming gun ownership as a "public health" issue, it won't be long before gun-control efforts begin.

SCHOOL BOARD

FREEPA has compiled a list of Candidates for all of our Lancaster County school districts, including write-ins for the upcoming election. I will send this list out by email for comments from our members. Some endorsed candidates are in fact very progressive and we intend to 'out them'. So please respond with any insights that you might have. If you wish to volunteer on Election Day, please contact Tabitha Mitchell at: Tammitha@protonmail.com or email us at freepalancaster@protonmail.com

Committee Heads & Volunteers Needed:

FreePA needs a team leader to head the Elections Committee. We are working towards actively primarying several key GOP representatives. The key to our success, in addition to getting the truth out about these RINOs, is to have a good solid candidate to run in their place. We need to begin that search now. Even if you are not currently on the committee, please use your circles of contact to help us find that person/s.

Covid Freedom/ Vaccine Mandates

Please see our website for a number of documents you can use if you are faced with coercion in the workplace with regards to vaccine mandates, masking and testing. Many have situations that are more dire or extreme, like those whose medical exemptions are denied. We are working with several attorneys that can assist you and your family directly. Please email us at: freepalancaster@protonmail.com and we will connect you.

As you know, FreePA has been assisting Penn Medicine and affiliated employees who are facing termination as a result of the mandates. We begun to develop a connection network for others who are faced with similar circumstances and wish to fight back. If you are in need of help, please email

us at: FreePaTeam@protonmail.com.

PICA, Pennsylvania Informed Consent Advocates, have officially filed their lawsuit in federal court to challenge the mandates on constitutional grounds. A class action lawsuit will be filed in the near future as well.

If you are an employee or spouse of an employee, the window is still open for you to sign the necessary documents that will make you party to the suit even though the suit has been filed. Former Trump attorney, Bruce Castor out of Philadelphia, is representing PICA, which has filed the petition as an S-Corp. They fully expect this case to go on to the higher courts before a decision will be reached. They and we, on their behalf, are continuing to raise funds for the effort. Please support this effort with funding as the costs are estimated to run over \$500,000.

If you wish to donate directly, please go here: <https://givesendgo.com/PICA>

A few quick insider facts on what is going on inside LGH. Currently, there are over 1,300 job openings posted. There are **SERIOUS SHORTAGES OF STAFF!** Over 11,000 people were affected by these mandates. Approximately 25% were fired, 25% quit voluntarily rather than vaccinate, 30% obtained temporary exemptions and the remaining 25% were pressured into submitting to the vax.

The hospital is continuing to deny therapeutics like hydroxychloroquine and Ivermectin, that have been proven to work and are continuing with the protocol that has resulted in many deaths-- that is, no treatment in early stages at all and then the use of Remdesivir (which causes kidney failure) and the use of ventilators and sedation, a certain death sentence.

LGH has gone so far as to refuse the requests of patients for Ivermectin, forcing them to go to court to obtain the drugs--which is a violation of the Right to Try laws!

In addition, unvaccinated patients are being mistreated in the hospital by some staff.

A film maker out of the west coast has decided to produce a documentary on those who have been harmed as a result of the Covid vaccinations. He is hoping to record personal testimony for this video. You can remain anonymous or not, the choice is yours. If you are interested in participating in this effort,

please contact us at our email.

Knowing that it is only a matter of time before they come for us all, so to speak, FreePA is exploring the potential for us to legally organize in such a way that we become a 'private membership organization' under the law. This would give us certain immunities from government overreach. **In conjunction with that, we are seeking to develop a list of businesses and service providers to form a cooperative that would uphold 'medical freedom' in the workplace and in serving their customers. We at FreePA, would maintain a list of these on our webpage as a resource for you to know where to go! So, if you have a business, let us know by responding to us by email!! We will help one another through this difficult time, with God's help and protection.**

Our goal is to also achieve this for **medical services** as well. We are researching all of this at the moment.

PA Legislative Items:

Republicans have introduced an updated version of the Voting Rights Protection Act in an attempt to reopen negotiations on the issue. In addition to voter ID, they have proposed improvements to accessibility, as well as changes requested by county election officials to help enhance the voting experience. **Senate Bill 735** will propose to amend the Constitution to require voter ID, giving you the opportunity to make your voice heard on the issue. **Please call your reps to get this done along with a solid voting bill, not the watered-down version that was vetoed by Wolf.**

In light of the amazing presentation by Captain Seth Keshel that clearly demonstrated the degree of fraud committed in our state, please reach out to the Republican members of the Senate Intergovernmental Operations Committee, 20-21, to:

1. Thank them for supporting the PA audit & demand that it be done!!
2. Ask them to make time for a meeting to vote on the subpoena
3. Also ask them to reach out to the Democrat members of the committee for their support.

LEGISLATIVE

On the **legislative front**, there are several pieces of legislation we must mobilize to oppose/support in addition to the others from our previous emails.

These include:

The Build Back Better Act- 3.5 Trillion Reconciliation Bill

House Speaker Nancy Pelosi, D-CA, has inserted a provision into the controversial \$3.5 trillion “Build Back Better Act” which would empower the government to fine employers over half-a-million dollars per infraction if they don’t enforce President Biden’s vaccination mandate for employees. “Buried on page 168 of the House Democrats’ 2,465-page mega bill is a tenfold increase in fines for employers that 'willfully,' 'repeatedly,' or even seriously violate a section of labor law that deals with hazards, death, or serious physical harm to their employees.”

THIS LEGISLATION WILL DESTROY THE AMERICAN ECONOMY & TRANSFORM AMERICA FUNDAMENTALLY!

These are a few highlights:

- 1) Universal Prekindergarten, \$450 billion: Right now, many pre-K programs in states will only extend to students with disabilities, but under Biden’s plan, pre-K would become a universal entitlement for three- and four-year olds in every state. The costs will be determined solely by how many children are enrolled. Once this passes, watch for mandatory pre-K programs to eventually follow in blue states.
- 2) Universal Paid Family Leave, \$500 billion: In addition to universal pre-K, the Biden plan calls for \$500 billion for 12 weeks of paid family and medical leave for mothers with newborns. This is another provision that, once embedded into the law, will never go away and will only ever be expanded.
- 3) Universal community college and higher education spending, \$111 billion: The legislation will offer two years of paid tuition for community college students in a massive expansion of higher education financial aid. Once in place, the next push will be for all undergraduate expenses to be paid for out of the federal budget, a direct subsidy for both state and private universities.
- 4) Rebuilding schools, \$82 billion: Despite receiving \$82 billion in the phase four legislation signed by former President Donald Trump for schools to safely reopen from Covid, Biden is now asking for another \$82 billion. The schools haven’t even spent the money from round 1.

- 5) Job training, \$80 billion: Despite the federal government spending tens of billions of dollars every year on job retraining, the Build Back Better plan will include yet another \$80 billion for job training. This is just excess.
- 6) \$3,600 and \$3,000 child tax credit extension, \$500 billion: Biden would extend the \$3,600 and \$3,000 child tax credits, which cost \$100 billion already, another five years for children under 6 and over 6, respectively. These tax credit expansions actually began under former President Donald Trump in the midst of the Covid pandemic and have since been expanded by Biden.
- 7) Green Energy Tax Credits, \$222 billion: Despite there are already being tens of billions of dollars of solar and wind production tax credits already in the law, Biden wants a massive expansion of green tax credits that will push more electric cars, more solar and more wind, creating more incentives than ever to end America's thermal energy abundance—which is needed to keep America warm in the winter and the lights on—in favor of scarcity among green energy sources. Look to the 2021 Texas power outage for what happens when a state stops expanding thermal energy sources to keep up with population growth and demand.
- 8) Tax provisions including restoring State and Local Tax Deductions, \$835 billion: Tax subsidies in the bill will total \$836 billion, including restoring state and local tax deductions and the child tax credits. More checks means more dependency on the government by American households.
- 9) Spying on every bank account more than \$600: The Biden plan would submit every single American's bank statement to the federal government so that the IRS can nickel and dime taxpayers and otherwise create a Big Brother-style financial surveillance system.
- 10) Forcing Medicaid expansion on 12 states that opted out of Obamacare's Medicaid expansion, \$100 billion+
- ⊖ the measure reinstates a 2% decrease in Medicare provider payments, thereby increasing wait times for care
 - ⊖ postpones Trump's Medicare Part D Rebate which introduced competition into the prescription drug market

ACTION: Call you representatives and demand that they reject this reckless spending debacle. Reach out to Democrats as well!

Our next meeting will be October 28th at Loxley's/ Heritage Hotel. Our guest speaker will be Attorney Eric Winter of Prince Law. We will be focusing on school boards. Come prepared to take notes from this important workshop as we mobilize to unmask our children and protect them from CRT.

Thank you members of FreePA for continuing to support our mission and fight for our freedoms!

With best regards,

**Anne Marie DiCarlo
Lancaster Chapter Leader**

Please join us at our next meeting on

October 28, 2021

Loxley's/ Heritage Hotel

500 Centerville Rd.

Lancaster, PA 17601

Doors open at 6:30pm

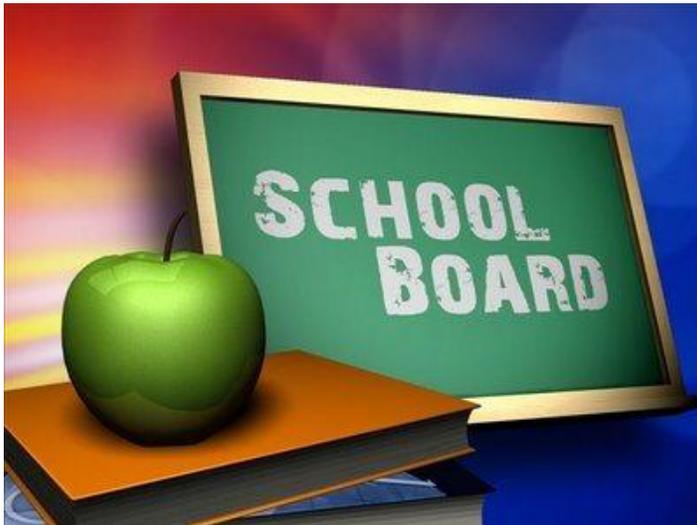

Meeting 7:00-8:30pm

Special Guests:

Eric Winter

Prince Law

School Board Workshop

Smiling Face, NO CRT, KIDS FULLY BACK TO SCHOOL—if these are issues you want to address, we need you! We need to know who would be willing to be on the School Board teams for Warwick, Conestoga Valley, Southern End, Elizabethtown Lancaster City, Pequea Valley, Solanco, Columbia, Elanco and Octorara. We have one or two in some of those but we need MORE! More voices more success!!! We can use more in other areas. Be sure to contact our School Board Team Chapter Leader Tammitha Mitchel at tammithamariemitchell@gmail.com

Our emailing address is:
freepalancaster@protonmail.com
