SEPTEMBER 23rd NOTES & CALLS TO ACTION

[FreePA Lancaster County Chapter](#)

Dear Friends & Fellow Patriots,

Many thanks to all who attended our meeting and a hearty welcome to all the new members of FreePA. The movement for freedom is growing, thanks be to God!

SUMMARY OF EVENTS/CALLS TO ACTION:

Manheim Township has a school board opening! Please prayerfully consider running for this seat. Over the years, our school boards here in the County, particularly those in Hempfield and Manheim townships have grown increasing liberal in composition. This is a real chance to make change today. If you are interested, please contact Tammy Mitchell at Tammitha@protonmail.com or email us at freepalancaster@protonmail.com

Medical Freedom: Following President Biden's recent vaccine mandates, a tyrannical power grab that usurps the individual rights of Americans and their employers, 27 state governors are fighting back and have threatened litigation against Biden.

Pushback has begun throughout the US. Take heart; the brave are fighting back.

- In September, massive crowds of protesters marched over the Brooklyn Bridge in NYC in protest of the mandates. Marchers sang a tune of "My body, my choice, the vaccine you won't force!", before Trump-inspired "No more bull****!", chants broke out.

See it here: https://freedomwire.com/new-yorkers-revolt-against-vaccine-mandates/?bsft_aaid=332a9128-e432-4053-9f6f-dc8877780412&bsft_eid=e6a893aa-948e-4232-a09e-355c9b8dcce7&utm_campaign=091521_frw_am&utm_source=blueshift&utm_medium=email&utm_content=091521_frw_am&bsft_clkid=bd94d339-577c-4ec2-a773-877495c333eb&bsft_uid=3c92e9fe-5282-4740-846b-385d60888d22&bsft_mid=48fc9dcc-33ed-42ec-ad3b-0b2707e966d8&bsft_utid=3c92e9fe-5282-4740-846b-385d60888d22-FWIRE&bsft_mime_type=html&bsft_ek=2021-09-15T11%3A01%3A36Z&bsft_lx=8&bsft_tv=3

- A federal judge in New York has temporarily blocked the state from enforcing a COVID-19 vaccine mandate without religious exemptions that applies to hundreds of thousands of healthcare workers. Judge David Hurd of the Northern District of New York ruled Tuesday that the New York state health department (DOH) "is barred from interfering in any way with the granting of religious exemptions from COVID-19 vaccination going forward, or with the operation of exemptions already granted."
- Workers at Michigan-based Spectrum Health can avoid the company's COVID-19 vaccine mandate if they can prove they have natural immunity to the virus.

Numerous hospitals throughout the US have already sounded the alarm that they are in danger of curtailing care and reducing beds as a result of the terminations due to the vaccine mandate. Many heads of hospitals have indicated that the staffing stresses are killing the hospitals, and in some cases, might result in

closures. One example is that of the Detroit-based Henry Ford Health Systems. The hospital announced on Sept. 13 that it was cutting 120 beds from five of its eight hospitals due to a lack of nurses and other staff members to service them. Two days later, Beaumont Health Systems announced that it was temporarily closing 180 beds for lack of staffing. In a statement released by Beaumont Health on Sept. 15, CEO John Fox outlined another cause for the flood of patients at the system's eight hospitals:

"Many people delayed getting tests and treatment for medical issues because of their concerns about the pandemic. Now, more than a year and a half after the pandemic began, those delays in care are resulting in medical emergencies," Fox said. "Add in a staffing shortage and you have a perfect storm."

We need to remain strong and in solidarity in defying this insane policy by the leftists in control of our government. The house of cards will fall!

Biden called for mandatory vaccination of all federal employees, military, health care workers employed by facilities that receive Medicare/Medicaid and employees of companies with more than 100. The administration is signaling it may try restricting interstate travel for the unvaccinated. ALL OF THIS IS UNCONSTITUTIONAL & WE NEED TO PUSH BACK! Interestingly, not included in the executive orders are mandates for members of federal employees in the legislative or judicial branches, including members of Congress, their staffers, as well as federal judges and other court employees. The USPS was also excluded after push back from the union. As always, marxist dictators always exempt themselves from their own rules for the masses.

Concerning the armed forces, the Army said commanders will request a General Officer Memorandum of Reprimand (GOMOR) for soldiers who refuse to be vaccinated and who do not have a pending or approved exemption request. "Such reprimands can be career ending," the Army warned. The Army said active-duty units are expected to be fully vaccinated by December 15, 2021, and that Reserve and National Guard units are expected to be fully vaccinated by June 30, 2022. **The Army has stated that soldiers with previous coronavirus infections are "not automatically exempt" from full vaccination and should consult their**

primary care managers. One way to fight back against this tyrannical mandate is to pursue an exemption based on the fact that the legal liability under the EUA vaccines, which are the only ones available at present, is not equivalent to the Pfizer FDA approved Comernity, which has yet to be released for use. Under the guidelines of the law, it is an acceptable and legal differentiation. Also , continue to pursue religious exemptions as well.

School Board:

In addition to the masking issues, there has been a flood of reports from school districts around the country that profanity and sexually explicit material is being presented to young children in the classroom. Here are a few links to examples (caution: the material is vulgar and disgusting):

<https://rumble.com/vmu0zt-parent-reads-explicit-course-material-given-to-students-to-the-face-of-scho.html?mref=22lbp&mc=56yab&fbclid=IwAR1NvotlsQkXYmIJD7uunpBjm4-0KmBswl-nmBFcpvj>

What we have not considered up to this point, is a strategy based on the grounds that school administrators are, by allowing this material, committing sexual crimes against children!

Watch this response to this issue:

https://twitter.com/jennybethm/status/1437911039576875008?ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1437911039576875008%7Ctwgr%5E%7Ctwcon%5Es1_&ref_url=https%3A%2F%2Ffreedombeacon.com%2Fmayor-threatens-to-charge-school-board-after-what-they-made-children-do%2F

I propose that we do likewise!

Masking:

This issue has now become a major rallying cry for all parents who are sick and tired of the manipulation and abuse of their children by the public school system. **Eric Winter, FreePA legal liaison, has put together a brilliant analysis/ review of the law by which the Governor is attempting for force masking.** Here is a brief summary (the original document is posted at FreePA.net under the Lancaster Chapter):

1. **There is nothing in the school code indicating that the authority of the Department of Health supersedes the authority of a school district.** Rather than

maintaining the local control that the school district already has, the Department of Health is seeking to take away control of the school district for an indefinite period of time in indefinite circumstances. In other words, there is no end to the Department of Health order. There is no end date, nor end condition. If a school district keeps the control that it is supposed to have, it can decide when and if masking will be used and what the end will be. To accept this loss of power is giving up the power that your constituents have given to you.

2. The Department of Health has based its authority on “section 5 of the Disease Prevention and Control Law, section 2102(a) of the Administrative Code of 1929, 71 PS. § 532(a); and the Department of Health’s regulation at 28 Pa. Code § 27.60 (relating to disease control measures)”. Those laws do give the Department of Health the authority to issue “control measures” for viral outbreaks. **Regulations that implement this provision make it clear that while the Department of Health may issue isolation or quarantine orders of sick individuals, this does not apply to all individuals regardless of their infected status. the Department of Health can only issue orders on an individualized basis. The Department of Health only has authority over schools, businesses or households where there has been an outbreak.** There is no authority over non-infected people. Even where there has been a viral outbreak, that control measure must be limited and for an appropriately short duration. This current order could theoretically last forever and covers hundreds of thousands of children who have not been exposed to the virus.

3. Under the current order, rural areas would be subject to the same restrictions as the large cities until the large cities get their virus cases under control. A one-size fits all policy is irrational. Why didn’t the Department of Health craft a “targeted” virus mitigation order as they have promised to do in the past?

4. The Department of Health has threatened that the school district could receive citations as a result of violating the order (assuming the order is legally valid). **The Department of health has neglected to mention that violations of the Virus and Disease Control Law and the Administrative Code of 1929 are punishable by filing summary citations. A summary citation is equally as serious as a traffic ticket.** The Disease Prevention and Control Law of 1955 carries a maximum fine of \$300. The Administrative Code carries a maximum fine of \$50.

5. I have been unable to find any situation in which a school board member was

ever held liable for a policy decision. **Policy decisions fall squarely within sovereign immunity.** It is also important to note that there is no exception for virus or diseases. Schools and School Boards are therefore protected from being sued in COVID cases by sovereign immunity.

6. There has also been a threat that administrators might lose their job or licenses if they do not comply with the order. This is also nonsense. **Pennsylvania law states:**

(a) District superintendents and assistant district superintendents may be removed from office and have their contracts terminated, after hearing, by a majority vote of the board, school directors of the district, for neglect of duty, incompetency, intemperance, or immorality, of which hearing notice of at least one week has been sent by mail to the accused, as well as to each member of the board of school directors.

7. **School Districts can face liability for not recognizing and granting exemptions however.** Under past precedents, the order does not require medical notes for an exemption. Wrongfully denying an exception can lead to actual liability. Individuals asserting a medical condition are protected under the Americans With Disabilities Act. If a public institution such as a school district fails to provide all Americans with Disabilities Act protections, the school district can face prosecution for unlawful discrimination by the Pennsylvania Human Relations Commission. 43 P.S. § 955

8. **A school can also face liability for excluding non-masked students from educational activity.** While a student is not necessarily entitled to an education tailored to their needs or wishes, they are entitled to an education- they literally own the right to be educated. There is a real and serious concern that denying non-masked students the opportunity to participate in all educational programs is an unlawful taking by the government which would subject the school to liability.

Legislative Updates & Calls to Action:

The "**John Lewis Voting Rights Act**" (H.R. 4) would impose far-reaching and unconstitutional restrictions on state election laws. H.R. 4, titled the "John R. Lewis Voting Rights Advancement Act," is sponsored by Representative Terri Sewell (D-Ala.) and co-sponsored by 191 representatives. House Democrats will vote on the bill during the week of August 23. If passed, H.R. 4 would implement a sweeping

federalization of American elections, albeit more stealthily than the “For the People Act,” and severely infringe upon state sovereignty.

- Most prominently, H.R. 4 would reestablish a “preclearance” process that states would be forced to abide by. Under it, states seeking to change their election laws in any way would need permission — before the law is goes into effect — from the U.S. Department of Justice. A preclearance requirement existed under the 1965 Voting Rights Act, but the U.S. Supreme Court struck down that provision in 2013.
- Furthermore, the types of election laws subject to preclearance under H.R. 4 are very broad, even including redistricting.

Soon, the House will vote on **S.Con.Res.14**, the budget resolution setting the stage for the extremist **\$3.5 trillion “infrastructure” bill**.

- mandates that states create carbon reduction programs
- creates a pilot program for a mileage tax, which tracks how many miles individuals drive
- requires car companies to equip all vehicles with “advanced alcohol monitoring systems”;
- allows the federal government to bypass “Buy American”
- enables mass migration by funding border crossings and migrant “welcome centers” while including \$0 for border wall construction;
- defines “gender identity” as a protected class.
- rewards states that support and facilitate illegal migration to the U.S., also for broadband spending.
- includes multiple radical climate change provisions, including over \$50 billion to protect against “climate change” and \$21 billion for “environmental remediation.” Additionally, H.R. 3684 will “modernize” the power grid to accommodate “green” energy.

Members of Congress are seeking to pass additional multiple bills that would fundamentally undermine the integrity of the U.S. immigration system, threaten American sovereignty, and grant amnesty to millions of illegal aliens. **These bills include: H.R. 1177, S. 348, H.R. 1909, S. 747, H.R. 1603, and H.R. 6.**

Although the Biden administration knew the current border crisis would occur, and likely planned the surge to implement its agenda, Congress continues to push for policies that will worsen mass migration and destroy our nation's cohesion. On March 21, Senator Dick Durbin (D-Ill.) stated that he was "close" to getting the votes to pass a DACA amnesty in the Senate.

A good way to push back against the deep state anti-American agenda is to defeat H.R. 1177, S. 348, H.R. 1909, S. 747, H.R. 1603, H.R. 6, and any other pro-migration bills. The exceptional level of freedom our recognized by our Constitution is too important to lose, whether through mass migration or other means.

NATIONAL DEFENSE AUTHORIZATION ACT:

i. Both versions of the National Defense Authorization Act (NDAA) has an amendment which would require young women 18-25 to register for the draft even as young men are required to do now.

ii. On September 1 five GOP members (Cheney, Bergman, Waltz, Franklin, Fallon) and all but one Democrat (Kim) on the House Armed Services Committee voted to pass [an amendment](#) to the NDAA (HR 4350) sponsored by Representative Chrissy Houlahan (PA-6). In this amendment all references to 'male' have been removed and changes the mobilization needs of the Department of Defense to "during a national emergency and not solely to provide combat replacements." This would give Pentagon bureaucrats the power to interpret and stretch this open-ended provision to however they interpret it! **Tell your rep you are opposed to women being drafted!**

Committee Heads & Volunteers Needed:

FreePA needs a team leader to head the **Elections Committee**. We are working towards actively primarying several key GOP representatives. The key to our success, in addition to getting the truth out about these RINOs, is to have a good solid candidate to run in their place. We need to begin that search now. Even if you are not currently on the committee, please use your circles of contact to help us find that person/s.

ALSO: Please consider **volunteering for Election Day at the polls**-- our focus is to get the word out on school board members that need to be removed. We will target key areas.

Email us at: freepa@protonmail.com if you want to be on the list!
