

Ingersoll Lockwood, Inc.

P.A.C. = Peaceful American Constitutionalists

By joining our organization, with annual membership donations of \$99 for individuals and \$199 for small business owners (1-25 employees) and \$399 for medium size business owners (26-2500 employees), like Medi-Share, we will pool the financial resources, with very low overhead, to provide services to members. We plan to use legal tactics and law suits to protect our members rights. We will create case law or prove/reiterate that the government of each town, city, state and at the federal level operates for #WETHEPEOPLE. This organization is by and for American citizens only. Feel free to copy our model in other countries and try to take back your rights, where possible.

Please read this more than once and email stevensamuels@ingersolllockwood.com if you have any questions relevant to this fund raise for launching Peaceful American Constitutionalists by October 17, 2021.

INDIVIDUAL DONATION (FOR 12 MONTHS MEMBERSHIP): \$99

SMALL BUSINESS OWNER DONATION (FOR 12 MONTHS MEMBERSHIP): \$199

MEDIUM SIZE BUSINESS OWNER DONATION (FOR 12 MONTHS MEMBERSHIP): \$399

Information:

The ONE question you've been asking yourself every day is "how do we reclaim our Nation, our personal sovereignty and freedoms while such corrupt, oppressive and evil Globalists have a stranglehold on America?"

For many years, some of us knew this was coming and prepared for it. A great awakening vs a great reset. While the US Constitution and state Constitutions have not yet been destroyed, while the Last President filled many of the courts with constitutional judges, our last moment to launch the Great Awakening and begin a new and positive era for humanity, has arrived.

"What do you have to lose?" Your health, your family, your job, your right to travel, your life? If not NOW, then WHEN, if not US, then WHO?

MEMBERSHIP IN THE P.A.C. - PEACEFUL AMERICAN CONSTITUTIONALISTS

By joining our organization, with annual membership donations of \$99 for individuals and \$199 for small business owners (1-25 employees) and \$399 for medium size business owners (26-2500 employees), like Medi-Share, we will pool the financial resources, with very low overhead, to fund the following:

- **Constitutional Legal Defense** - Once we have 1,000 members signed up (ie at least \$100,000 in the 'pool') we will install a Constitutional Lawyer as corporate counsel who will help us help members in a limited direct capacity under our banner, as a strong message to offenders affecting your rights, to 'back off'.
- **Scaling it Nationwide** - Lawyers in all 50 states will be hired on retainer and standing by to come to the defense of members in URGENT need. This may be to simply write a letter to help resolve an issue where someone (government official, school board, a local government agency or a business) attempted to trample your constitutional rights. To be able to do this, we need at least 3,000 members (or at least \$300,000 in the 'pool') to have the financial backing to kickoff the P.A.C. We will be open books to our members and show our extremely low overhead costs, each year.
- **Constitutional Rights Training** - We will be limited in what cases we will be able to support BUT we will provide training materials, sample citizen rights documents and more.
- **Extras for Business Owners** - You'll get business membership and immediate family (2 membership cards). We'll provide you legal documents and instructions on how to turn your business into a private club within the purview of state laws, so you can ignore all medical tyranny mandates, and much more.
- **Member Communication Training** - How to communicate your message publicly, how to communicate with each other. Tools and techniques to stay in touch even if the internet goes dark. HAM Radio training tools, Satellite Phone training tools - where to buy, how to use properly and much more.
- **Right To Privacy Training** - What things you should get rid of or update - devices, apps, smartphones and how to replace them or add a blocking technology to reclaim your privacy. How to leverage consumer.gov and other agencies as well as the credit bureaus to reduce risk of identity theft.

- **Members Running For Office** - You'll get to see the list of members running for office. They will agree in writing that their Oath to the State and/or US Constitution matters tremendously to our members and that should they infringe our rights in any way, while in office, they realize we will hold them accountable.
- **Non-members Who Pass Muster Running for Office** - You'll get to see the list of non-members running for office who we will try to vet (like NRA does on 2A). They will agree in writing that their Oath to the State and/or US Constitution matters tremendously to our members and that should they infringe our rights in any way, while in office, they realize we will hold them accountable.
- **Links and Offers to other resources** to help you become self-sufficient - having access to your own power supply, clean drinking water, storable foods, in house and outdoor gardening and much more.
- **On and Off Grid Communications and Meetups** - We will find and deploy multiple ways for all members to communicate and to organize, peacefully, ethically and legally for redress of grievances and to be better trained and better prepared for the challenges and risks that come with being an honest, ethical, peaceful patriotic american who is no longer a sheep being led to slaughter, but a member of a P.A.C. of Lions and Lionesses, standing up for our Constitutional rights and helping each other, collectively.
- **Membership cards will be provided** with normal business hours number and emergency (only if you've been arrested) 7x24x365 number for after hours to reach our lawyer(s). Login access to private portal, online training materials and links to critical survival gear to purchase (offsite, discounts may apply).

Our legal defense is for defending your constitutional rights related to the current state of affairs and ongoing activities, post COVID-19 and will not replace DeltaDefense 2A legal support or LegalShield or other normal legal services you might choose to obtain.

The more members, the more legal power and leverage we will share, together.
