

NOVEMBER 11th NOTES & CALLS TO ACTION

[FreePA Lancaster County Chapter](#)

Dear Friends & Fellow Patriots,

Many thanks to all who attended our meeting and a hearty welcome to all the new members of FreePA.

Many thanks to Dr. Steve Turley for returning to our forum to share his spot-on insights and optimism for the future of our republic! We are so blessed to have his support. The movement for freedom is growing, thanks be to God!

SUMMARY OF EVENTS/CALLS TO ACTION:

Local Election Updates:

Thank you to all our members who volunteered during this last election cycle! Our efforts paid off! In both Lancaster and York Counties, the candidates we supported won overwhelmingly. Of the 70 candidates in York, 53 wins were decided on election night and 7 are still in the process of counting for certification. Lancaster county saw big gains as well, with over 50 of our endorsed candidates securing seats on the judiciary, in local government and on school boards! Write in candidates received over 50,000 votes, an all-time high. FreePA is supporting two of those candidates with legal help to ensure that some of the votes not counted due to scanning errors are indeed counted in the final tally.

As soon as all races are decided, we will post a comprehensive summary on our website.

School Boards:

The Commonwealth Court of PA has sided with the constitution in deciding that the mask mandates in public schools promulgated by the Wolf Administration are illegal and unenforceable!

Commonwealth Court sided 4-1 with the ranking Republican in the state Senate and others who sued to challenge the masking order from Acting Pennsylvania Secretary of Health Alison Beam that took effect in early September.

The Commonwealth Court judges said Beam's mandate didn't comply with laws about reviewing and approving regulations and was adopted without an existing disaster emergency declared by the governor.

Beam has appealed the decision to the state Supreme Court.

Eric Winter is analyzing the law to determine if the appeal automatically creates a 'stay' for the mask mandate until the higher court rules or declines to hear the case. Many liberal schools were quick to announce that the masks must stay on children K-12 and in child-care facilities. Other school boards returned to previous mask optional policies.

Interestingly, the day before the ruling was announced, the Wolf Administration commented that they were planning to drop the mask mandates in early January, no doubt to save face in the light of their defeat in court.

Their appeal of the ruling however, reveals that *they had no intention of doing away with the mask mandate in January*. If that were the intention, why appeal the case over a matter of months.

State Matters:

1. Constitutional Challenge to Act 77

A new challenge to Act 77 has been initiated! Rep. Dave Zimmerman (New Holland) has spearheaded an effort to challenge Act 77 on constitutional grounds. 14 legislators, including Mike Jones, Dawn Keefer and Frank Ryan, have signed onto the suit. The basis for the suit was that the PA constitution requires a process to be followed before election laws are amended: introduction into the legislature through two consecutive sessions and a constitutional amendment ballot to the public. This was not done and as a result, the changes should be nullified. The suit has been expedited to the Commonwealth Court and will continue through the appellate system. *A victory will do away with mail in balloting, extended voting days and restore the straight party vote.*

ACTION: Call your representative and DEMAND that they support this lawsuit. Remember that aside from Reps. Zimmerman & Mentzer, all of our Republican representatives voted for ACT 77!

2. Covid Pay-off

Last week, Gov. Tom Wolf announced *state employees under his jurisdiction would be granted five days off – or receive an equivalent paid bonus – in exchange for getting a COVID-19 vaccine*. State Treasurer Stacy Garrity has estimated this will cost taxpayers more than \$100 million.

3. Second Amendment Protections in PA

Pennsylvania State Senator Pat Stefano, a Republican, introduced new legislation on Thursday that would expand castle doctrine beyond an individual's dwelling to his or her property line.

Castle doctrine is a concept stating that it is acceptable to use lethal force in order to defend yourself from attack in your own home but it's typically *limited to a citizen's dwelling, automobile, and, in some states, workplaces*.

The law was last updated in Pennsylvania in 2011 to extend the right of self-defense to places where a citizen has the right to be if they believe themselves to be in danger of being murdered, **kidnapped, severely injured or raped.**

National Matters:

1. GUNS

The Biden Administration is unlawfully gathering info on gun owners! The ATF obtained 53.8 million paper records and another 887,000 electronic records, according to the internal document that outlines ATF actions in fiscal year 2021. Gun activists

described this figure as worryingly high and said it contributes to fears that the Biden administration is trying to keep track of all Americans who own firearms, in violation of federal statutes. The procurement of these records by the ATF comes as the *Biden administration moves to alter current laws to ensure that gun records are stored in perpetuity. Currently, gun shops can destroy their records after 20 years, thereby preventing the ATF from accessing the information in the future.*

2. OMAROVA NOMINATION

On the very day that voters across the country rejected the Democratic Party's turn to the left, the [White House](#) officially nominated Professor Omarova to be comptroller of the [currency](#). The comptroller is the nation's chief banking regulator, supervising some 1,200 financial institutions of all shapes and sizes and, according to its [website](#), "approximately 70 percent of banking activity in the country." **Omarova, who hails from the former USSR, is an unrepentant communist who continues to promote a Marxist-Leninist agenda.**

Omarova was born in Kazakhstan in 1966. She immigrated to America during her mid-20s. Senator Pat Toomey (R., Pa.), an early opponent of her nomination, has requested that she provide a copy of a thesis she wrote at Moscow State University, which she attended thanks to the Lenin Personal Academic Scholarship. The thesis is titled "[Karl Marx's Economic Analysis and the Theory of Revolution in *Das Kapital*](#)." Omarova has kept this thesis secret, no doubt to shield her favorable views on communism. Also, consider her 2020 paper, "[The People's Ledger: How to Democratize Money and Finance the Economy](#)." It offers, she says, "a blueprint for a comprehensive restructuring of the central bank balance sheet as the basis for redesigning the core architecture of modern finance." She would like to subject the Federal Reserve, which these days has enough trouble keeping inflation in check, to a "series of structural reforms that would radically redefine the role of a central bank as the ultimate public platform for generating, modulating, and allocating financial resources in a democratic economy—the People's Ledger."

CALL TO ACTION: Contact your Senators and demand that they reject this nominee!

3. House Passage of the Infrastructure Bill

The ill-fated H.R. 3684 would have died in the House had it not been for 13 traitors among the Republican Party, an all too familiar pattern with RINOS. A large enough number of radical dems had voted against as the bill was not radical enough for them! The RINOs who need to be removed from office include the following: were Reps. Don Young of Alaska; Adam Kinzinger of Illinois; Fred Upton of Michigan; Don Bacon of Nebraska; Chris Smith and Jeff Van Drew of New Jersey; Andrew Garbarino, John Katko, Nicole Malliotakis and Tom Reed of New York; Anthony Gonzalez of Ohio; Brian Fitzpatrick of Pennsylvania; and David McKinley of West Virginia.

Specifically, H.R. 3684 includes the following radical provisions:

- [mandates](#) that states create carbon reduction programs
- creates a pilot program for a [mileage tax](#), which [tracks](#) how many miles individuals drive- will use to punish drivers
- requires car companies to equip all vehicles with “[advanced alcohol monitoring systems](#)”
- [allows](#) the federal government to [bypass](#) “Buy American” rule
- enables mass [migration](#) by funding border crossings and [migrant “welcome centers”](#) while including [\\$0 for border wall](#) construction;
- defines “[gender identity](#)” as a protected class
- enacts [racial quotas](#) for [broadband](#) spending;
- [rewards](#) states that support and facilitate illegal migration to the United States
- Amtrak bail-out
- includes multiple [radical climate-change provisions](#), including over \$50 billion to protect against “climate change” and \$21 billion for “environmental remediation.” Additionally, H.R. 3684 will “modernize” the power grid to [accommodate](#) “green” energy; and
- among [other](#) provisions, H.R. 3684 [includes](#) \$39 billion for public transportation, \$15 billion altogether for electric transportation, \$65 billion for broadband, a \$30 billion [cryptocurrency tax](#).

CALL TO ACTION: CONTACT YOUR SENATORS AND DEMAND THAT THEY VOTE AGAINST THE SENATE BILL AND CULTIVATE SUPPORT TO REJECT AMONG THEIR DEMOCRAT COUNTERPARTS!!!

4. **Natural Immunity Bill**

Rep. Diana Harshbarger (R-Tenn.) and 10 other members of the House of Representatives introduced the “Natural Immunity Is Real Act,” a companion to [a Senate bill](#) from Sens. Mike Lee (R-Utah), Tommy Tuberville (R-Ala.), Mike Braun (R-Ind.), and Dan Sullivan (R-Alaska). It would require federal agencies to “acknowledge, accept, and agree to truthfully present, natural immunity pertaining to COVID-19 pursuant to promulgating certain regulations.” None of our PA state senators are sponsors on this bill!!

ACTION: Call your Reps and demand that they support this legislation!

Covid:

1. OSHA VACCINE MANDATES

A Federal Court has issued an injunction against the OSHA mandate that all businesses employing over 100 persons must enforce vaccination as a condition of employment. The court determined that the agency does not have the constitutional authority to issue such a mandate. The Biden Administration’s response has been to direct businesses to IGNORE the high court and proceed with the vax requirements!

Now, 11 states have also filed suit against Biden as well as a number of other private groups.

2. Vaccines Approved for Children Age 5-11

This ungodly ruling from the FDA is reckless and corrupt. The trials involving children were scant and short: of approximately 31,000 participants roughly half were followed for 2 months and the remainder (added late in the trial to bump up numbers) were followed for only two weeks! Data from the trials on older children clearly show that there are significant heart injuries associated with the vaccines that are at levels way above the expected adverse effects (see below for the analysis):

EPISODE 239: SEEKING JUSTICE

Expected vs. Observed reports after mRNA vaccination dose 2, 7-day risk period (N=765)*

Age group, years	Females		Males	
	Cases of myocarditis, expected	Cases of myocarditis, observed	Cases of myocarditis, expected	Cases of myocarditis, observed
12-15*	0-3	12	1-5	117
16-17*	0-2	15	0-3	121
18-24*	1-8	24	1-11	213
25-29*	1-6	16	1-9	56
30-39	2-21	10	2-19	72
40-49	2-22	22	2-19	45
50-64	4-40	15	4-35	13
65+	4-44	6	4-36	8

* As of Aug 18, 2021, assumes a 7-day observation window, with 765 of 897 reports after mRNA vaccines occurring during Days 0-6 after vaccination, counts among 12-29 years. Data reflects expected cases distribution for myocarditis, expected outcomes. For details 12-29 years visit <https://www.fda.gov/oc/ohrt/covid-19-vaccine-safety>

There are numerous whistleblowers who have come forward to testify that Pfizer had falsified data in the trials as well. Seven of the twelve persons on the advisory panel that recommended that children should receive vaccines have ties to big pharma.

In addition, the vaccine maker admitted to altering the composition of the vaccines so that they can be stored longer without degrading. When asked if the trials included doses with those modifications, the answer was NO! THIS IS ILLEGAL!!

Please watch the following videos below that give excellent analysis:

3. Suspension of FreePA Mail Chimp Account

Following the issuance of the last minutes, Mail Chimp suspended our account for “Community Policy Violations”. What were these violations? We dared to send out health related information that challenged the official narrative that the only ‘treatment’ for Covid is a vaccine!

We will continue to send you minutes from this account, but please see our website at FreePA.net for all information!

That said, we have more health information for you compiled from very reliable and credible sources. In total, there is over 65 pages of information, but it is divided into parts to make it more digestible). I am including the PDF as an attachment to this email. It will be posted on the website also).

Please see our website for a number of documents you can use if you are faced with coercion in the workplace with regards to vaccine mandates, masking and testing. Many have situations that are more dire or extreme, like those whose medical exemptions are denied. We are working with several attorneys that can assist you and your family directly. **Please email us at: freepalancaster@protonmail.com and we will connect you.**

Knowing that it is only a matter of time before they come for us all, so to speak, FreePA is **seeking to develop a list of businesses and service providers to form a cooperative that would uphold 'medical freedom' in the workplace and in serving their customers. We at FreePA, would maintain a list of these on our webpage as a resource for you to know where to go! So, if you have a business, let us know by responding to us by email!! We will help one another through this difficult time, with God's help and protection.**

Our goal is to also achieve this for **medical services** as well. We are researching all of this at the moment.

Upcoming Events:

Our next meeting will be Thursday, December 9th at Loxley's Restaurant/Heritage Hotel on 500 Centerville Rd., Lancaster.

Doors open at 6:30; meeting from 7:00-9:00pm.

Our special guest is Rep, Frank Ryan and he will be giving us insights on the PA Audit as the effort continues!

Thank you, members of FreePA, for continuing to support our mission and fight for our freedoms!

**With best regards,
Anne Marie DiCarlo
Lancaster Chapter Leader**
