

August 15, 2022 meeting notes

Lancaster County Southern End Chapter

Friends & Follow Patriots,

Thank you all for joining us for the FreePA Southern End Chapter meeting in August.

Stacy Admas shared on her experiences on going against her school board with masking & testing of her children and what ramifications that had. She began to dig more into it and found very interesting the DNA collection and “ginko bioworks” and how the CDC gave PA a multi-million dollar contract if a school chooses to participate in school testing. Key thing to look for schools using ARP ESSER funds to incentivize parents to sign students up for testing, Concentric “pooled” tests in classrooms, or the technique of “empowering kids to self-test” that they are using as behavior modifications. Steps to take: get your elected representatives on speak on this, get your school board to commit to NOT comply if mandated, educate yourself & others.
